

There are two ways to enter recording schedule, by Date or by Days.

First mode can be configured by clicking Add button in Dates tab.

You can select days for recording, start and end. This option is ideal for specific recordings. Click **OK** and **Apply**.

To do regular recordings, such as every day of the week, you should use **Days** option. In this tab appears every day of the week and their hours. In this example we set a record for any week from 9:00 to 18:00 hours. Remember that you must select day by day and mark the end time and start time for a weekly recording. Finally click **Apply**.

The screenshot shows the 'Recording Configuration' window for camera 'Camera1 192.168.1.111 C54NETCAM2'. The 'Days' tab is active, showing a grid of time slots for each day of the week. The 'Mon' tab is selected, and the time slots from 09:00-09:30 to 14:30-15:00 are checked for recording. The 'Apply' button is visible at the bottom right.

Time Slot	Sun	Mon	Tue	Wed	Thu	Fri	Sat
