How to use Teletext with CTVCOMBOI

The CTVCOMBOI Teletext supports analog TV and digital TV.

It's required that you install teletext software included with installation CD.

Insert installation CD. When installation menu it's shown then click on **CTVCOMBOI -> INSTALL TELETEXT SOFTWARE.**

Follow installation steps.

Once it's installed open Hypermedia software. Click **A** if you want to watch analog broadcast and press **D** if you want to view digital broadcast. Then click on **Teletext Viewer**.

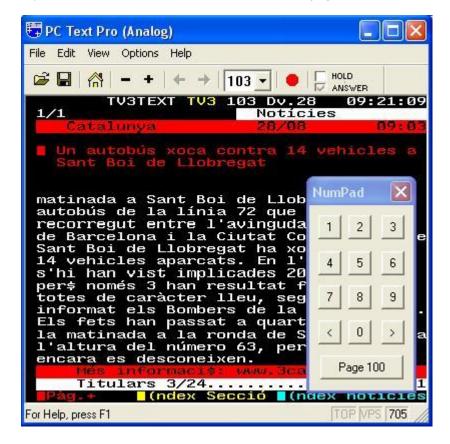

Then you will get a new window showing selected channel teletext.

If you want to move between different teletext pages click on **View -> NumPad**

For digital broadcasting you can follow same steps but to move between different teletext pages click on "hand".
