

**1. Product overzicht**

**Voorkant**

**Achterkant**

Nr	Beschrijving
A	LAN poort LED indicatielampjes (1-8)
B	Power LED indicatielampje
C	LAN poorten (1-8)
D	Gelijkstroomingang (9V, 0.6A)

**2. Installatie en gebruik**

- Sluit de lichtnetadapter aan op de DC gelijkstroomingang van de switch en op een stopcontact. Wanneer de Power LED brandt staat de switch aan en is hij klaar voor gebruik.
- Sluit uw netwerkapparaten (computer, notebook, printer, router, etc.) aan op de LAN-poorten van de switch. Wanneer een aangesloten apparaat wordt aangezet, gaat de LAN LED van de betreffende poort aan.

*Veel plezier met uw Conceptronic 8 Ports Switch!*

Multi language Quick Guide

**8 Ports Switch  
10/100 Mbps**

**Back**

Nr	Description
A	LAN port LED indicators (1-8)
B	Power LED indicator
C	LAN ports (1-8)
D	DC input (9V, 0.6A)

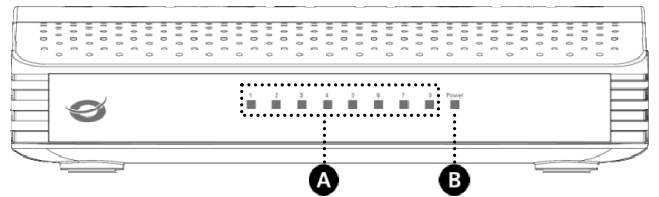

**2. Installation & usage**

- Connect the power adapter to the DC input of the switch and to a free wall outlet. When the power LED turns on, the switch is powered and active.
- Connect your network devices (computer, notebook, printer, router, etc.) to the LAN ports of the switch. When a connected device is turned on, the LAN LED of the corresponding port will turn on.

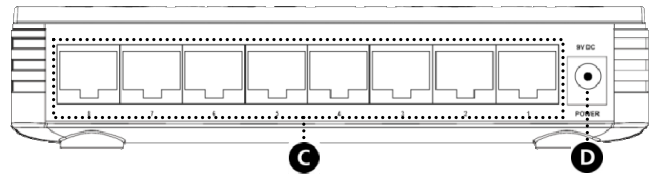

*Enjoy the use of your Conceptronic 8 Ports Switch!*

**1. Descripción del producto**

**Parte frontal**

**Parte posterior**

Nº	Descripción
A.	Indicadores LED de los puertos LAN (1-8)
B.	LED de encendido
C.	Puertos LAN (1-8)
D.	Entrada de corriente DC (9 V, 0,6 A)

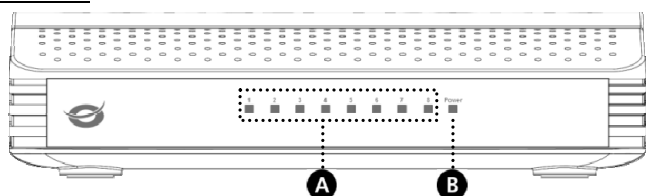

**2. Instalación y utilización**

- Conecte el cable de alimentación a la toma de corriente continua del switch y a una toma de corriente de la pared. Cuando el LED de alimentación se enciende, indicará que el switch está encendido y listo para ser utilizado.
- Conecte sus dispositivos de red (ordenador de mesa o portátil, impresora, router, etc.) a los puertos LAN del switch. Cuando se enciende un dispositivo conectado al switch, se encenderá el LED del puerto LAN correspondiente a ese dispositivo.

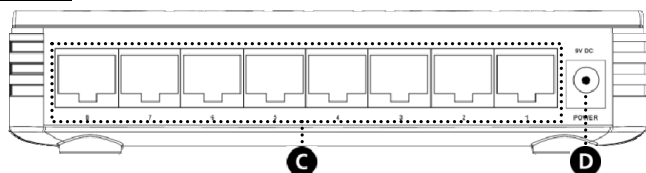

*¡Disfrute del uso del switch de 8 puertos de Conceptronic!*

## 1. Einführung in das Produkt

## Vorderseite

## Rückseite

Nr.	Beschreibung
A	LAN-Port-LED-Anzeigen (1-8)
B	Power-LED-Anzeige
C	LAN-Ports (1-8)
D	Gleichstromeingang (9V, 0,6A)

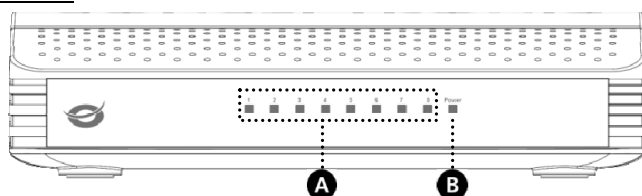

## 2. Installation und Bedienung

- Schließen Sie das Netzteil am Gleichstromeingang des Switches und an einer Steckdose an. Sobald die Power-LED-Anzeige einschaltet, wird der Switch mit Strom versorgt und ist aktiv.
- Schließen Sie Ihre Netzwerkgeräte (Computer, Notebook, Drucker, Router usw.) an die LAN-Ports des Switches an. Wenn ein angeschlossenes Gerät eingeschaltet wird, schaltet die LAN-LED-Anzeige des betreffenden Ports ein.

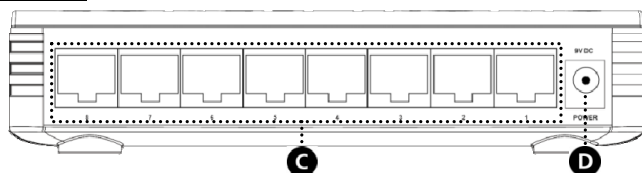

*Viel Spaß mit Ihrem Conceptronic 8-Port-Switch!*

## 1. Explication du produit

## Vue avant

## Vue arrière

Nr	Description
A	Port LAN indicateurs LED (1-8)
B	Indicateur LED allumé
C	Ports LAN (1-8)
D	Entrée DC (9V, 0,6A)

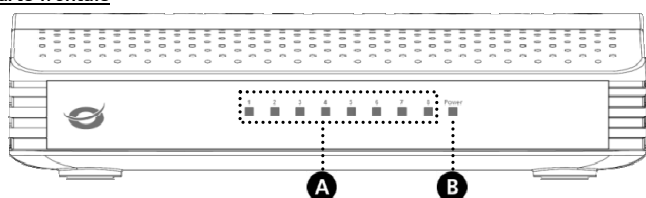

## 2. Installation &amp; utilisation

- Branchez l'adaptateur d'alimentation sur l'entrée DC du commutateur et sur une prise murale libre. Lorsque la batterie LED s'allume, le commutateur est branché et fonctionne.
- Branchez vos dispositifs de connexion de réseau (ordinateur, ordinateur portable, imprimante, router, etc.) sur les ports LAN du commutateur. Lorsqu'un appareil branché est allumé, le voyant LAN du port correspondant s'allume.

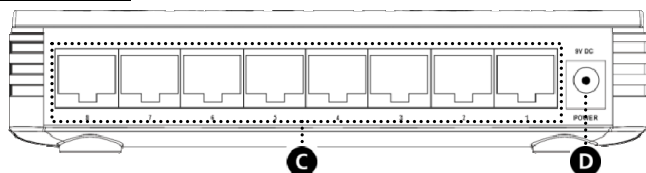

*Amusez-vous bien avec votre commutateur à 8 ports de Conceptronic !*

## 1. Descrizione del prodotto

## Parte frontale

## Parte posteriore

N.	Descrizione
A	Indicatori LED porta LAN (1-8)
B	Indicatore LED di alimentazione
C	Porte LAN (1-8)
D	Ingresso DC (9V, 0,6A)

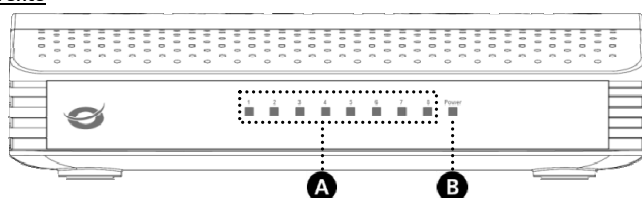

## 2. Installazione e uso

- Collegare l'adattatore di corrente all'ingresso DC dello switch e a una presa a muro disponibile. Quando si accenderà il LED di alimentazione, lo switch verrà alimentato e sarà attivo.
- Collegare i dispositivi di rete (computer, notebook, stampante, router, ecc.) alle porte LAN dello switch. Ogni volta che verrà acceso un dispositivo connesso, il LED LAN della porta corrispondente si accenderà.

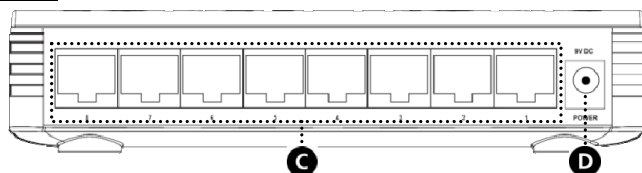

*Divertitevi ad usare lo Switch a 8 porte di Conceptronic!*

## 1. O produto

## Frente

## Traseira

Nº	Descrição
A	Luzes indicadoras da porta LAN (1-8)
B	Luz indicadora de alimentação
C	Portas LAN (1-8)
D	Entrada CC (9 V, 0,6 A)

## 2. Instalação e utilização

- Ligue o transformador à entrada CC do switch e a uma tomada livre. Quando a luz de alimentação acender, significa que o switch está ligado e activo.
- Ligue os seus dispositivos de rede (computador, portátil, impressora, router, etc.) às portas LAN do switch. Quando um dispositivo estiver ligado, a luz LAN da porta correspondente acende.

*Divirta-se com o seu Switch de 8 portas da Conceptronic!*
